

Your health information accounts for more than what you share in your doctor's office.

It's not just a list of symptoms and a medical diagnosis. Data is captured across your entire health care journey, including emergency wait times, specialist referrals, and immunization records, to name a few.

Health Information
Professionals Week

Recognizing the professionals who ensure Canadians' health information is accurate, accessible, and relevant.

March 23-27 #HIPWEEK20 echima.ca
