Join us in celebrating HIP Week this year!!

- ◆ Health Information Professionals Week is fast approaching and as always, our NSPE CHIMA Chapter is a proud supporter in HIP week and in promoting our profession.
- ◆ The NSPE Chapter is making \$500 total available to members this year to help celebrate HIP Week. Sites will be reimbursed up to a maximum of \$50/site. If more than ten sites submit receipts, the \$500 will be divided equally among all sites who submit. Receipts must be received by April 30, 2018 for reimbursement.
- ◆ Visit the CHIMA website and check out the HIP Week promotional materials and suggested activities to help you plan your week.
- ◆ Send us your photos after for inclusion in our next newsletter.

Want a Voice in your CHIMA Chapter?

Are you looking to network with fellow HIMs from across the Chapter as well as across the country? Would you like to earn valuable CPE credits for volunteering? Are you interested in promoting your profession to others? Would you like the opportunity to attend the CHIMA National Conference? Want to add something great to your resumé?

All of these are possible by volunteering with your CHIMA Chapter. We have vacancies currently on our Chapter Committee and would love to see representation from both PEI and NS remain on the Committee. Currently, this is a three-year commitment.

Not ready to be part of the Chapter Committee? Why not volunteer for one of our subcommittees? Currently, this is a one-year commitment.

Education Committee—work with the committee to liaise with potential speakers and stakeholders to set up education sessions and workshops that provide valuable educational sessions to our membership.

Membership Engagement Committee—work with the committee to meet the communications requirements of the Chapter to engage the members—this will include the newsletter, the webpage, email blasts to members, etc.

If you are interested, please email your Chapter at NSPEchapter@echima.ca.

Member Spotlight

Amy graduated from the HIM program at NSCC in June of 2016. She is currently working as a DAD coder at Valley Regional Hospital in Nova Scotia.

Amy joined the NSPE Chapter in 2017 because she was looking for a way to give back and promote her new chosen profession. She believes that it is important to be involved at the Chapter level to gain a better understanding of what the Chapter can do for its members.

Amy is looking forward to her career as an HIM and encourages her fellow members to get involved and do what they can to promote the profession.
